To Whom It May Concern:

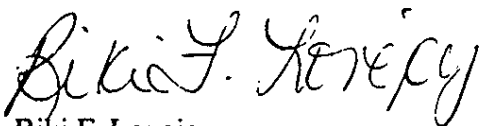

We had an opportunity to work with COMELCO on the Renovation to the 7th Floor at the Orange County Courthouse building with their scope of work including revamping an older system and addition of new work.

Throughout the project COMELCO, both their field personnel and office staff, worked closely with M & V Builders, to attain the common goal of a successful project. Concerns arose which were discussed in a timely manner and solutions were recommended and applied.

The project proceeded on schedule with professionalism and good workmanship. M & V Builders does not hesitate in requesting proposals from COMELCO with the intent for working together again in the future.

Sincerely,

M & V BUILDERS, INC.

Riki F. Lovejoy
Vice President
